

Interface SERVICES™

# Actions Speak Louder than Words.

# Multiple locations. Difficult schedules. Occupied space. Who knew flooring projects could be so complicated?

**At InterfaceSERVICES™ we've done it all.** We make even the most complex flooring assignments easy. No matter where you are, no matter how many locations you have, no matter what type of product you choose — modular carpet tiles, broadloom or other flooring — we can handle every aspect of your project. From product selection and order placement to timely delivery and expert installation, we have the experience you need to: • **Minimize costs** • **Avoid delays** • **Reduce downtime**

**Our one-source solution means you'll save money, time and hassles.** Plus, you'll work with the very best in the business. We're flexible, accountable and completely committed to your satisfaction.

**Let us show you what InterfaceSERVICES can do for you.**

**Mission Zero:**  
our promise to eliminate  
any negative impact our company  
may have on the environment  
by the year 2020.

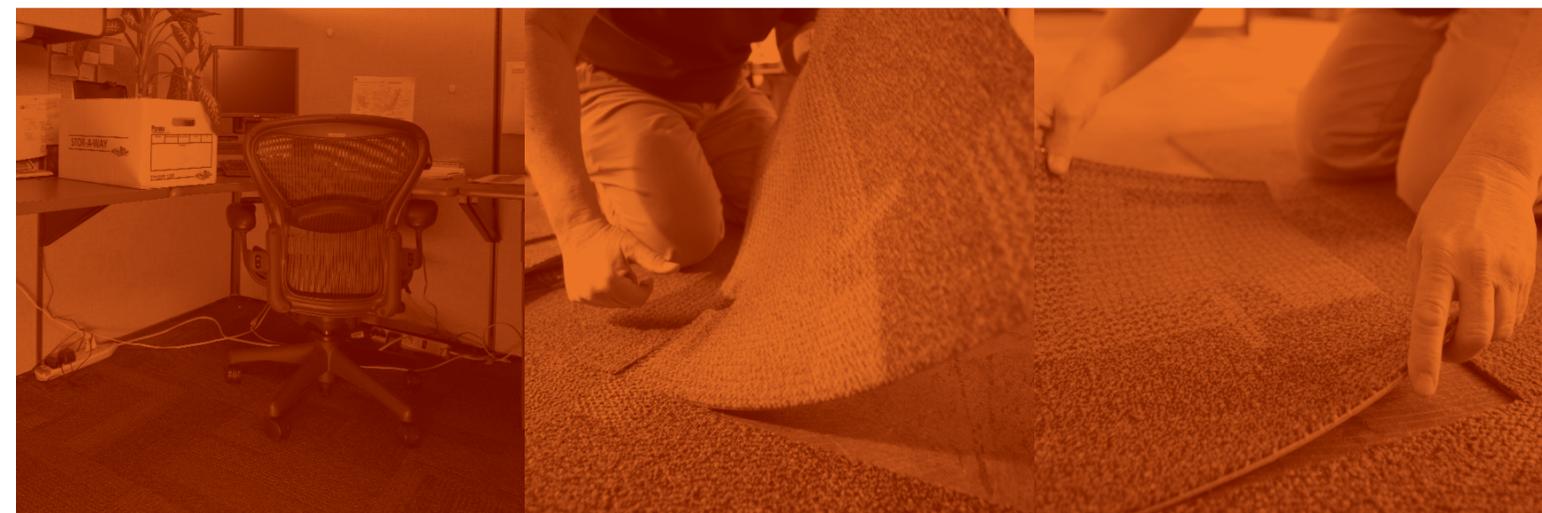

# Installation of More than 2.5 Million Yards of Flooring.

Your flooring is an investment, and selecting it is just the beginning. Getting it properly installed and maintained is what makes the difference between an investment that lasts and a disappointing waste of time and effort.

**InterfaceSERVICES' installation network includes the most skilled, reputable and experienced professionals in the country.** Each member of our team recognizes the importance of high-quality installation and takes great pride in doing the job right.

**Working with us makes installation easy.** We provide one point of contact for all of your locations — everywhere in the U.S. — so scheduling is a breeze. **We handle all the details.**

**And it's no problem if your spaces are occupied.** Using Renovisions®, our proprietary furniture lift system, we can replace your existing carpet quickly and cost-effectively. No moving, packing or disconnecting wires. No downtime for employees.

ABOVE IS AN EXAMPLE OF A WORK STATION THAT'S READY FOR FLOORING REMOVAL AND INSTALLATION. NO MOVING, PACKING OR DISCONNECTING WIRES NECESSARY AND NO DOWN TIME FOR EMPLOYEES.

# Installation of Carpet Under 300,000

## Furniture Units.

**Installing carpet in occupied space?** It's no problem with Renovisions®, our patented furniture lift technology. Renovisions works with all major furniture systems — and it's the only lift sanctioned by leading furniture manufacturers.

**Using Renovisions means less downtime, less hassle and less cost.** In fact, Renovisions can reduce your costs by as much as 30 percent. There's no moving, packing or disconnecting existing data or electrical wires inside the furniture system — and no downtime for employees.

**Here's how it works.** Our trained installers use the Renovisions hand-controlled friction jacking system to precisely and gently lift the furniture, using custom fittings designed for each specific furniture system. Once the furniture is lifted, carpet tiles are easily installed underneath, and the furniture is returned to its original position.

**Renovisions is the key to cost-effective, hassle-free carpet replacement in occupied work environments.**

# Reclamation of More Than 94 Million Pounds of Carpet.

**Interface, Inc. is on a journey toward sustainability.** We call it Mission Zero. It is our promise to eliminate any negative impact our companies may have on the environment by the year 2020.

**Letting used carpet end up in the landfill puts an unnecessary burden on our world —** socially, economically and environmentally. **That's why, when we remove your old carpet, we reclaim it. It is our goal to divert as much carpet as possible from the landfill.**

**At InterfaceSERVICES, we are experts in carpet reclamation.** Our ReEntry® carpet reclamation program is one of the most aggressive and successful carpet recycling programs in the industry. ReEntry is designed to find the best solution for your old carpet, whether it's recycled into new materials like new backing, upcycled into more valuable products, downcycled into less valuable products, or repurposed in another setting. We also take into consideration the energy and fuel it will take to reclaim your carpet to ensure the most sustainable solution.

ReEntry also helps you avoid costly landfill disposal fees and stringent government restrictions.  
**We make it easy for you to do the right thing.**

Completion of More than

# 75,000 Projects.

**We make it all simple and convenient.**

With one point of contact, your flooring needs are met nationwide, from start to finish:

- **Installation** — Our experts can install any type of flooring you choose. We'll coordinate multiple locations, different schedules — even the most challenging jobs.
- **Invoicing** — One contact means one invoice, complete with all the detail you need for accurate recordkeeping and accounting.
- **Procurement** — We can help you reduce costs by 15 percent with an overall procurement strategy. Whatever you need, we can source it for you cost-efficiently.
- **Scheduling** — No more headaches trying to coordinate installations in several locations. We'll handle it all, so you can focus on more important things.
- **Estimation** — Our estimation technology eliminates material waste through precise measurement. Pay for what you need and eliminate waste of materials and labor upfront.
- **Ordering** — Let us help you order just the right amount of flooring so that you'll pay only for what you need.
- **Design Assistance** — Our interior designers are at your service to help guide your flooring decisions, both from an aesthetic point of view and in terms of site-specific usage and installation issues.
- **Reporting** — Accurate accounting is easy with our detailed reports. You'll know how much each job cost at each location, down to the penny.
- **Inventory Management** — We keep track of everything you've ordered and make sure your flooring is where you need it, when you need it.
- **Warehousing** — Eliminate pre-installation storage problems with our warehousing service. We'll keep your flooring safe and sound until you're ready for it.
- **Site Assessment** — Each site presents different challenges. Given our years of experience, we can alert you to potential issues and help you determine which products will work best in every situation.

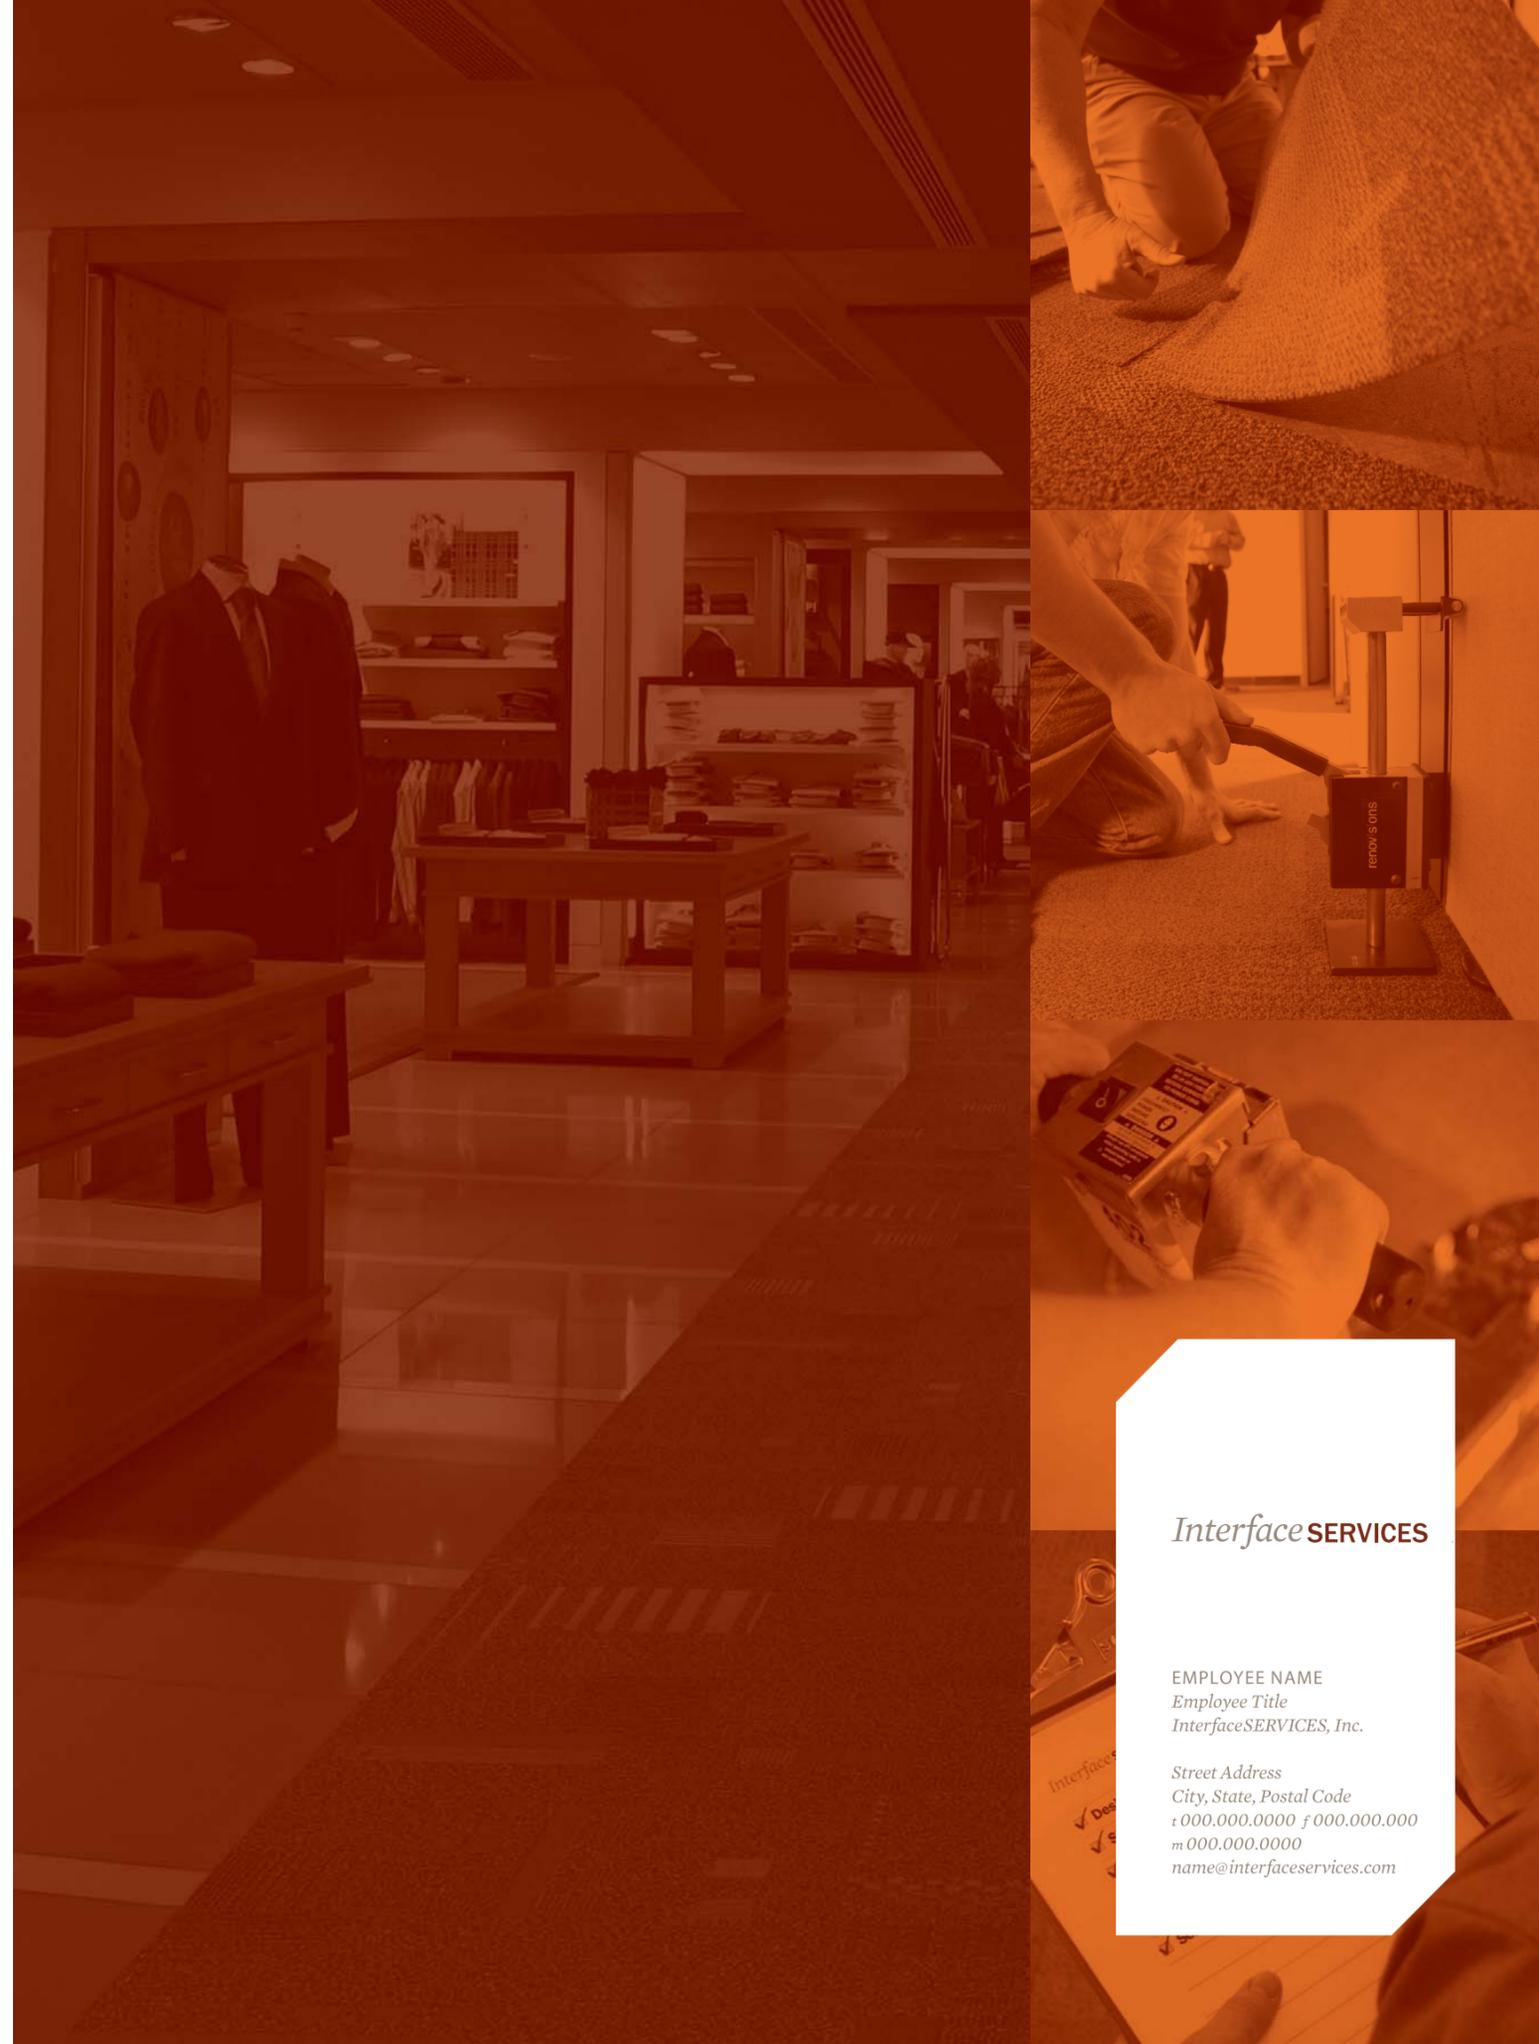

# We're on our way and looking forward to working with YOU.
